Applicant hereby submits an information disclosure statement pursuant to 37 CFR §1.97 (b)(3). This information disclosure statement is being filed January 19, 2005, which is believed to be prior to the mailing of a first office Action on the merits.

25 The submission of any document herewith is not intended as an admission that such document constitutes prior art against the Claims of the present application or is considered to be material to patentability as defined in 37 CFR § 1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a
30 prima facie prior art reference against the Claims of the present invention.

The applicant is in possession of a partial English translation of the reference being disclosed. The entirety of the partial translation is disclosed herewith. Markings appear on the partial translation. Those markings were made by a patent examiner at the United States Patent and Trademark Office against an unrelated patent application, and
35 those markings are not believed to be relevant to the patentability of the above-noted application. 37 CFR §1.98(a)(3)(i) requires a concise statement of relevance of the reference being disclosed. Accordingly, the reference is understood to have Figure 5, which may be relevant to the patentability of the above-noted invention.

Please confirm receipt by stamping and returning the enclosed self addressed postcard with postage prepaid.

Respectfully submitted,
